AquaAroma Tank Series

AquaAroma and AquaAroma Crema – optimised for mobile coffee machines

The AquaAroma and the AquaAroma Crema filter cartridges reduce carbonate hardness in drinking water and protect espresso machines and coffee machines against scale build-up. The filter material reduces the level of substances that impair the smell and taste such as chlorine.

With the AquaAroma Crema the taste can be optimised by adjusting the Aroma setting to the local carbonate hardness. The cartridge filters the water just before activating the brewing process.

AquaAroma filter cartridges are suitable for use in specially designed or retrofitted tank systems, and also for mobile coffee machines with an integrated water tank. They filter water while filling the water tank. Thus, the entire volume of the water tank is filled with filtered water.

The benefits to you

AquaAroma Crema
• Can be fitted in the water tank horizontally
• Water quality can be adjusted by using the Aroma ring – according to local water quality
• Constant water pressure and temperature during brewing

AquaAroma
• Reduced service costs
• Lower running costs
• Direct distribution by the operator
• Easy filter exchange – simply by the user
Pure coffee enjoyment

**AquaAroma Crema**
Filter cartridge suitable for use in coffee machines with specially designed integrated water tank systems (suction operation).

The Aroma ring of the AquaAroma Crema adjusts the filter performance perfectly to the local water conditions. To identify the right adjustment for the respective hardness, indicator strips will be delivered with every cartridge. AquaAroma Crema filter cartridges are suitable for use in coffee machines with specially designed integrated water tank system – the water is sucked through the cartridge. The food safety of BRITA Professional water filter products is tested and monitored by independent institutes.

---

**AquaAroma**
Filter cartridge suitable for use in coffee machines with tank-in-tank system (gravity operation).

AquaAroma filter cartridges are suitable for use in specially designed or retrofitted tank systems, and also for mobile coffee machines with an integrated water tank. The food safety of BRITA Professional water filter products is tested and monitored by independent institutes.
