

VIVREAU SODAMASTER 200

MULTI-TALENT WITH HYGIENE-PLUS

The new, upgraded VIVREAU Sodamaster 200 is the high-performance water dispenser from the VIVREAU Sodamaster product series. It provides chilled still or sparkling (optional medium or classic) or unchilled still water. All water dispensers of the product series VIVREAU Sodamaster are equipped with the unique Thermal Germ Barrier to avoid retrograde contamination. Equipped with the exclusive 3-Zone-Protection "BRITA Hygiene Solution" – including the unique Thermal Germ Barrier – it offers the perfect solution for special hygiene demands.

OPT FOR CLEAN. OPT FOR GREEN.

At BRITA we have always cared about the environment. Our philosophy is to provide the best quality water from the most local source, eliminating the need for costly and polluting transportation and packaging.

The installation of a BRITA water dispenser has an immediate impact on your ecological footprint.

THE BENEFITS TO YOU

- High-performance water dispenser for high consumption demands
- Unlimited unchilled still, chilled still or chilled sparkling (optional medium or classic) water on demand
- Proven cost savings and environmental benefits versus pre-bottled waters
- High-quality materials (stainless steel)
- Modern glass touch interface
- Individual adjustment of water temperature
- Unique Thermal Germ Barrier as standard
- Exclusive 3-Zone-Protection "BRITA Hygiene Solution" optional
- Programmable portion control

SAFETY AND HYGIENE CONCEPT

The exclusive "BRITA Hygiene Solution" is a special hygienic concept, dedicated for highly sensitive areas, such as hospitals. It consists of three important elements:

- The inlet filter (CLARITY Protect) with a 0.15 µm membrane retains bacteria from the tap water.
- The 0.2µm sterile filter retains bacteria before the water is dispensed.
- The unique Thermal Germ Barrier protects from retrograde contamination.

This special 3-Zone-Protection provides the safety requirements especially needed in sensitive areas. This is proven by numerous long-term studies of hygiene institutions.

CORRESPONDING ACCESSORIES

With our accessories you make life even easier and the water supply even smoother.
