

Let's adopt safe habits

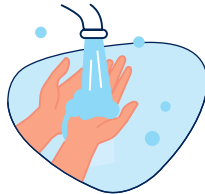

BRITA VIVREAU's top tips for hygienic hydration in the workplace

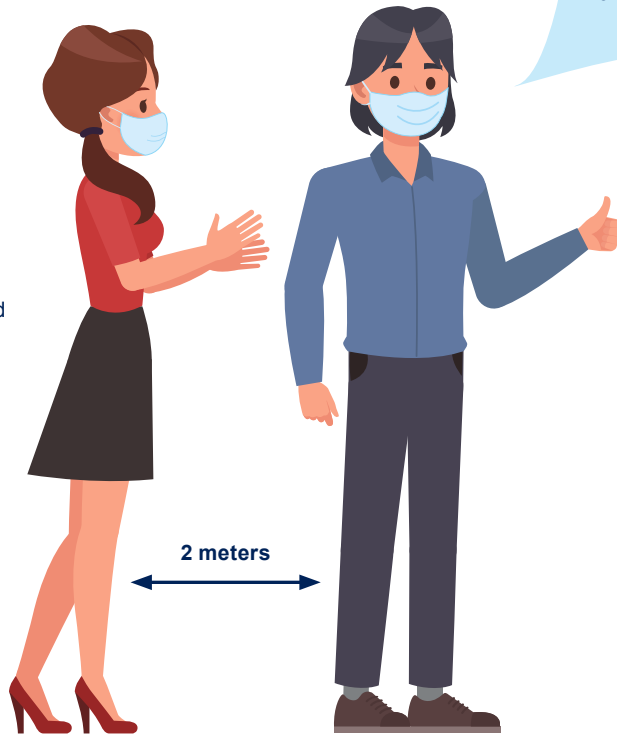

Wear a mask

where necessary/
recommended

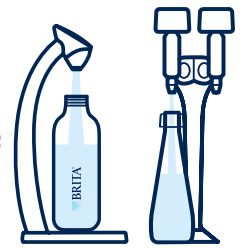

Wash your hands

with soap and water, or use
hand sanitiser gel before and
after using the dispenser

Place your
glass or bottle
on the dispenser drip tray
and serve yourself

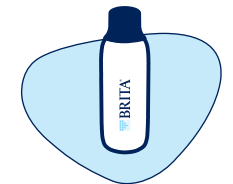

Follow hygiene recommendations

for daily cleansing of your
dispenser system

Avoid crowding

in front of the
dispenser

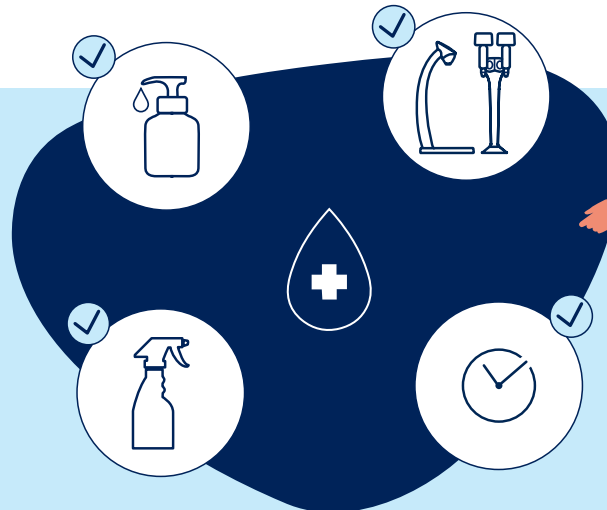

Use your own glass or bottle

Trust the water experts

- BRITA VIVREAU mains-fed water dispensers provide clean and great tasting filtered water on demand.
- Our dispenser systems fulfill high safety and hygiene standards and can be used with minimal risk.
- During each site visit, BRITA VIVREAU service engineers use special cleaning agents to thoroughly disinfect all dispenser contact surfaces.

Be sure to follow Government guidelines for health and safety in the workplace.

Regular dispenser maintenance and filter replacement
